**IN THE MATTER OF THE APPLICATION OF CHESAPEAKE UTILITIES
CORPORATION, DELAWARE DIVISION'S REQUEST FOR APPROVAL
OF CHANGES TO THE TRANSPORTATION AND BALANCING RIDER AND
THE GAS SUPPLIER SCHEDULE OF IT TARIFF (FILED OCTOBER 1, 2013)
PSC DOCKET NO. 13-383**

PUBLIC NOTICE

**TO: ALL NATURAL GAS TRANSPORTATION CUSTOMERS AND QUALIFIED GAS
SUPPLIERS OF CHESAPEAKE UTILITIES CORPORATION AND OTHER INTERESTED
PERSONS**

On October 1, 2013, pursuant to 26 Del. C. §§ 201 and 301 and Order No. 8430 (August 13, 2013) in PSC Docket No. 12-450F, Chesapeake Utilities Corporation ("Chesapeake" or the "Company") filed an application with the Delaware Public Service Commission (the "Commission") seeking to make certain changes to the Transportation and Balancing Rider ("Transportation Rider") and Rate Schedule "SUP" ("Gas Supplier Schedule") of its Delaware Division Tariff. Among other things, Chesapeake requested permission to revise its current Transportation Rider to establish a new approach to its allocation of the cost of interstate pipeline capacity to transportation customers. Based in part on input received by Chesapeake during workshops held in this docket, on September 5, 2014, Chesapeake filed an Amended Application ("Amended Application"). In the Amended Application, Chesapeake is proposing to release a portion of its pipeline capacity upstream of Eastern Shore Natural Gas Company ("ESNG") into the open market pursuant to the Federal Energy Regulatory Commission capacity release rules. Under Chesapeake's proposal, ninety percent (90%) of the revenues received by the Company from the release of this upstream capacity would be credited to the Company's firm sales customers through the Company's GSR rates. To facilitate the release of this upstream capacity, the Company is requesting a waiver of the Asymmetrical Pricing Rule adopted by the Commission by Order No. 5828 dated November 6, 2001.

The Company is also requesting approval to revise the balancing fees charged to its transportation customers by including in the fees the cost of upstream capacity needed to balance a transportation customer's design day requirements. The Company is also proposing to charge balancing fees to the Company's General Service ("GS"), Expansion Area General Service ("EGS"), Medium Volume Service ("MVS"), and Expansion Area Medium Volume Service ("EMVS") transportation customers. The Company's current tariff does not include balancing rates for these rate classes.

Chesapeake also requests permission to make other changes throughout the Transportation Rider and its Gas Supplier Schedule either to clarify existing language or to modify the mechanics of the transportation program in order to improve efficiency. The proposed changes are shown in the redlined and clean copies of the Transportation Rider and Gas Supplier Schedule attached to the Amended Application, which can be found on the Commission's website (<http://depssc.delaware.gov>) in its Delafile system by searching Docket 13-383.

The Company is requesting that the proposed changes be effective on April 1, 2015. The proposed changes to the methodology for calculating the balancing rates, under the Company's proposal, would take effect with the Company's first GSR filing made after April 1, 2015, with the new rates to become effective on November 1, 2015.

The Commission has appointed R. Campbell Hay as the Hearing Examiner in this docket. The Hearing Examiner will conduct an evidentiary hearing, to be scheduled at a later date, concerning the Application. The Commission's final decision will be based on the evidence presented at such evidentiary hearing.
